

1.
UVC LED Sterilizer User Manual

2.
Advantages

-CERTIFICATE OF MICROBIOLOGIC ANALYSIS-

Escherichia Coli	Staphylococcus Aureus	Candida Albicans
Sterilizing rate	Sterilizing rate	Sterilizing rate
99.99%	99.99%	99.99%

3.
Kills 99.99% of Germs: disinfecting by Dual UV Lights. The UV light at wavelength of 260-280nm kills bacteria by damaging the Molecular Structure of the DNA or RNA safely and eco-friendly. The whole process achieves a 99.99% Sterilizing Effect.

What Can Be Sterilized: the device is suitable not only for Smart Phones (no bigger than 6.5 inches), but it is also suitable for small gadgets except liquid, such as small toothbrushes, iPods, Wireless headsets, watches, cosmetics, jewelry etc. May brittle materials eg. plastic over a long period of time.

Automatic Sterilization in 6 Minutes: put the article in the device and close the lid. The device will start to sterilize automatically. After 6 minutes, the device will stop sterilizing.

360 Degree All-Around Sterilization: there are four UVC LEDs in the sterilizer, two at the top inside the sterilizer and two at the bottom inside the sterilizer. This causes the irradiation to reach all surfaces of the article and the sterilizer achieves a 360 Degree All-Around sterilization.

Intelligent Disinfection, Safe and Reliable: the UVC LEDs will turn off automatically when you open the device during the sterilization process, which avoids the irradiation getting out of the device. When the device is closed again the process will restart automatically.

4.
Set Up

1. **Connecting Power:** please connect the power supply by USB cable. After connecting the power supply, the red indicator light begins to flash.

2. **Operation Instruction:** open the lid and put the article you want to disinfect inside the sterilizer. Close the lid and the process will start automatically. The red indicator light flashes to indicate that the disinfection is under way. After 6 minutes the indicator light will stop flashing and stays on indicating that the disinfection is over.

3. **Don't** leave the device connected to a power supply without surveillance.

The device is not suitable for:

1. Small children
2. Outdoor usage
3. Liquids
4. Using near water
5. Disinfection of humans or animals

Notice!!! If the sterilizer is opened during the process, the red indicator light will stop flashing and stay on and the UVC LEDs will automatically turn off. After closing the lid, the device automatically starts disinfecting again the process will restart. **Do not disinfect liquid.**

Applicable Objects: cell phones (no bigger than 6.5 inches, wireless headsets, small gadgets, tableware, watches, small toothbrushes, jewelry, etc.

5.
Specifications:

Input: 5V 1000mA

Input Interface: Micro USB

LED Wavelength: 260-280nm

LED QTY: 4 PCS
LED life: 10 000h
Inner Dimension: L170 W90 H22mm
Item size: L200 W118 H48mm
Material: ABS
Weight: 290g

Package included: UVC LED Sterilizer, USB Cable, User Manual.

6.

Warranty Policy:

During the warranty period, you can enjoy the services of replacement and refunding according to the following policy:
